

Community Development Impact Fees

Effective February 7, 2026

WHAT IS AN IMPACT FEE?

An **impact fee** is a fee that a local agency imposes on a new or proposed development project to help pay for all or a portion of the costs of providing public services to the new development. Impact fees are considered to be a charge on new development to help fund and pay for the construction or needed expansion of offsite capital improvements.

Please note additional fees may apply depending on the project. For a complete list of application fees, refer to the Master Fee Schedule (MFS): www.newark.org/MasterFeeSchedule. In the event of any discrepancy between the fee amounts listed here and those in the MFS, the MFS shall prevail.
